

A well-established LOCAL independent family business

Kitchen Matrix

Here's something.. for those who maybe would like to self-plan the kitchen layout yourself.. or maybe would like to see the various options of configurations etc.. available.

Note:

This is not our full capability of what we can offer.. as theres simply too much to list, but certainly this is the typical day-to-day stuff what's used majority of the time.

Hope this help!!!! ☺
